*PIR-O-MURSHID HAZRAT INAYAT KHAN* likens *the Spirit of Guidance* to "yeast...used to make bread, to prepare humanity for the purpose for which it was created;...a plant that grows and blossoms when it receives response and care...when watered by the rainfall of divine inspiration blooms in the light of the Divine Sun...the Light of God; ...a lantern that the farmer carries when walking on the farm in the darkness of night;...a searchlight...any object on which the searchlight is thrown, it shows clearly...upon any aspect of life gives a keen insight...."

*In the Spirit of Guidance one finds a living God active in the heart of every person."*
