## Leader Information

Initiated into Sufism by Murshid Wali Ali and certified as a Dance Leader by Pir Moineddin in 1979, **Sheikh Muiz Brinkerhoff** has presented the Dances and Sufi practice over the last 36 years at workshops, seminars, camps and retreats in the US and the United Kingdom. He also works one on one with Sufi mureeds, mentors emerging Dance Leaders and those who resonate with his particular approach to Waking Up: embodying spiritual practice, increasing magnetism and attunement, cultivating a radiant attitude, taking personal responsibility for psychological projections and integrating shadow issues, and above all not taking self so seriously – the ultimate goal being to realize that **Body is the Temple and Heart is the Altar of God/Goddess/Source**.

Muiz' Sufi practice has been informed and deepened by a wide variety of Life experience and interests including his own psychological and psychic healing and integration, providing HIV/AIDS education within the LGBT community, facilitating court-mandated domestic violence prevention men's groups, and directing a weekly Sufi men's group.

On the artistic and creative side he has danced Hawaiian Hula, created Tiffany-style stained glass, and is continually expanding his extensive photography portfolio. These experiences leavened with an irreverent sense of humor have helped him avoid getting stuck in either of two major pitfalls on the Spiritual Path: ungrounded, spaced-out ecstasy, or dour, joyless sobriety. As Hazrat Inayat Khan and Murshid Sam emphasized so often, balance and rhythm are keys to the secret of Life.

At **SKY Camp** Muiz will share his approach to making God/Goddess a Reality and a Lover not a Jailer, using a variety of Dances, Wazifa and Breath practices, Satsang-style conversations, and other tools to open and deepen our Heart connections with each other and our Innermost Being.
